

1. Identification

Product identifier	Trumix #33 Disappear				
Other means of identification					
Product code	F693328				
Recommended use	Deodorizer	Deodorizer			
Recommended restrictions	None known.				
Manufacturer/Importer/Supplier/	Distributor information				
Manufacturer					
Company name Address	Trumix DC2 One Fuller Way Great Bend, KS 67530 United States				
Telephone E-mail	Customer Service Not available.	(800) 810-482	29		
Emergency phone number	CHEMTREC Emergency 24 hour Emergency	(800) 424-930 (620) 792-171 (800) 424-930	11		
2. Hazard(s) identification					
Physical hazards	Not classified.				
Health hazards	Serious eye damage/eye irritati	ion	Category 2B		
Environmental hazards	Hazardous to the aquatic environ hazard	onment, acute	Category 3		
	Hazardous to the aquatic environ long-term hazard	onment,	Category 3		
OSHA defined hazards	Not classified.				
Label elements					
Hazard symbol	None.				
Signal word	Warning				
Hazard statement	Causes eye irritation. Harmful t	o aquatic life. F	Harmful to aquatic life with long lasting effects.		
Precautionary statement					
Prevention	Wash thoroughly after handling	. Avoid release	e to the environment.		
Response	If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.				
Storage	Store away from incompatible materials.				
Disposal	Dispose of contents/container in accordance with local/regional/national/international regulations.				
Hazard(s) not otherwise classified (HNOC)	None known.				
Supplemental information) of unknown acute hazards to the aquatic component(s) of unknown long-term hazards to the		

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
UNDECETH-7		34398-01-1	10 - < 20
isopropyl alcohol		67-63-0	3 - < 5
Sodium Bicarbonate		144-55-8	1 - < 3

Chemical name	Common name and synonyms	CAS number	%
Methylchloroisothiazolinone		26172-55-4	< 0.1
Other components below reportable leve	ls		80 - < 90

-Other components below reportable levels

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

_

Inhalation	Move to fresh air. Call a physician if symptoms develop or persist.
Skin contact	Wash off with soap and water. Get medical attention if irritation develops and persists.
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.
Ingestion	Rinse mouth. Get medical attention if symptoms occur.
Most important symptoms/effects, acute and delayed	Irritation of eyes. Exposed individuals may experience eye tearing, redness, and discomfort.
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.
General information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.
5. Fire-fighting measures	
Suitable extinguishing media	Water fog Foam Dry chemical powder. Carbon dioxide (CO2)

Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire-fighting equipment/instructions	Move containers from fire area if you can do so without risk.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.
General fire hazards	No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of low areas. Wear appropriate protective equipment and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
Methods and materials for containment and cleaning up	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers. Prevent entry into waterways, sewer, basements or confined areas. Following product recovery, flush area with water.
	Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.
Environmental precautions	Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS. Avoid release to the environment. Contact local authorities in case of spillage to drain/aquatic environment. Prevent further leakage or spillage if safe to do so. Do not contaminate water. Avoid discharge into drains, water courses or onto the ground.
7. Handling and storage	
Precautions for safe handling	Avoid contact with eyes. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices. Avoid release to the environment. Do not empty into drains.
Conditions for safe storage, including any incompatibilities	Store in original tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).

Flammability class	Combustible IIIB estimated		
Percent volatile	80.55 % estimated		
Pounds per gallon	8.45		
Specific gravity	1.02 estimated		
VOC (Weight %)	3 % estimated		
10 Stability and reactivity			

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	Hazardous polymerization does not occur.
Conditions to avoid	Avoid temperatures exceeding the flash point. Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Ingestion	Expected to be a low ingestion hazard.			
Inhalation	Prolonged inhalation may be harmful.			
Skin contact	No adverse effects due to skin contact are expected.			
Eye contact	Causes eye irritation.			
Symptoms related to the physical, chemical and toxicological characteristics	Irritation of eyes. Exposed individuals may experience eye tearing, redness, and discomfort.			
Information on toxicological effe	ects			
Acute toxicity	Not available.

isopropyl alcohol	0.05		
Mobility in soil	No data available.		
Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.		

13. Disposal considerations

Disposal instructions	Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international regulations.
Local disposal regulations	Dispose in accordance with all applicable regulations.
Hazardous waste code	The waste code should be assigned in discussion between the user, the producer and the waste disposal company.

Waste from residues / unused products	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).				
Contaminated packaging		ken to an approved waste handling site for recycling or disposal. retain product residue, follow label warnings even after container is
